

#### Remarks

Release notes with changes since version 5.3.9.

#### Upgrade Notes:

No special actions are required when upgrading from Appway 5.3.9 to 5.3.10.

## Appway Platform (Core)

### Change

Area	Importance	Description
Studio	Low	Modal Windows: Messages with long text are now scrollable instead of being cut off if they do not fit the window height.

### Bugfix

Area	Importance	Description
Integration Link	High	Calling an integration link no longer fails with an exception if the calling context does not have access to a "current user".
Studio	Low	Deployment: Detaching a window of the export dialog now works on IE as well.
